Parent Preference Milk Substitution Statement

Providers who participate on The Child and Adult Care Food Program are required to serve Cow's Milk to participating children. If children cannot consume cow's milk due to medical, other special dietary needs, or Parent Preference, other than a disability, non-dairy beverages may be served in place of cow's milk. Non-dairy beverages must be nutritionally equivalent to milk and meet the nutritional standards for fortification of calcium, protein, vitamin A, vitamin D, and other nutrients to levels found in cow's milk.

Products that meet the requirements in Alaska are:

Unflavored:

- ☐ Pacific Ultra Soy Milk
- ☐ 8th Continent Soy Milk
- ☐ Pearl Organic Smart Soy Milk
- ☐ Kirkland Signature Organic Soy Milk Plain
- ☐ Great Value Original Soy Milk

Flavored:

- ☐ Sunrich Naturals Vanilla Soy Milk
- ☐ PediaSure 1.5 Cal Liquid Vanilla
- ☐ PediaSure 1.5 Cal with Fiber Liquid Vanilla

Please fill out a Medical Statement if you would like a fluid milk substitution for your child. Check the 3rd box for Parent Preference and sign the form. Providers are encouraged to accommodate these requests. Providers are not required to supply the substitute as long as they are providing all other components of the meal.
